

## Gauss-law checks do not certify the Wilson-loop sector

| Injected case              | Local Gauss checks | Wilson sector   | Diagnosis             |
|----------------------------|--------------------|-----------------|-----------------------|
| No error                   | PASS (1.000)       | CORRECT (1.000) | target state          |
| Gauge-violating Z0         | FAIL (0.000)       | CORRECT (1.000) | detected locally      |
| Gauge-preserving string X0 | PASS (1.000)       | WRONG (0.000)   | Gauss-only blind spot |
